

# **SUSTAINABLE PREVENTIVE DRUG EDUCATION**

**Let do it for our children !**

Presented by

Pol. Gen. THONG SOKUNTHEA

Deputy Secretary General

The National Authority for Combating Drugs

The Kingdom of Cambodia

# CONTENTS

## I. INTRODUCTION

- 1) Drug Use Situation
- 2) Preventive Drug Education Interventions
- 3) Anti-Drug Campaign and New Initiative on PDE

## II. SUSTAINABLE PREVENTIVE DRUG EDUCATION

An Example of PDE in School

## III. LESSON LEARNS

## IV. WAYS FORWARD

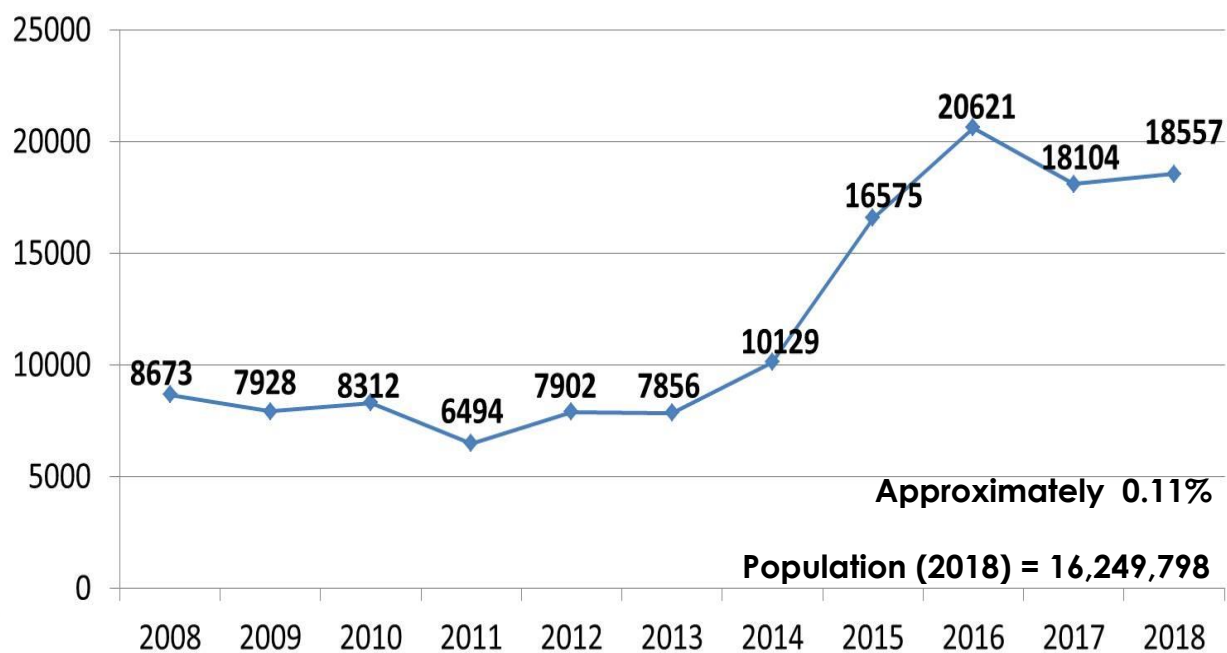

# I. INTRODUCTION

## 1) DRUG USE SITUATION

Drug use becomes one of the most concerned social issues and spread from urban to some rural areas;

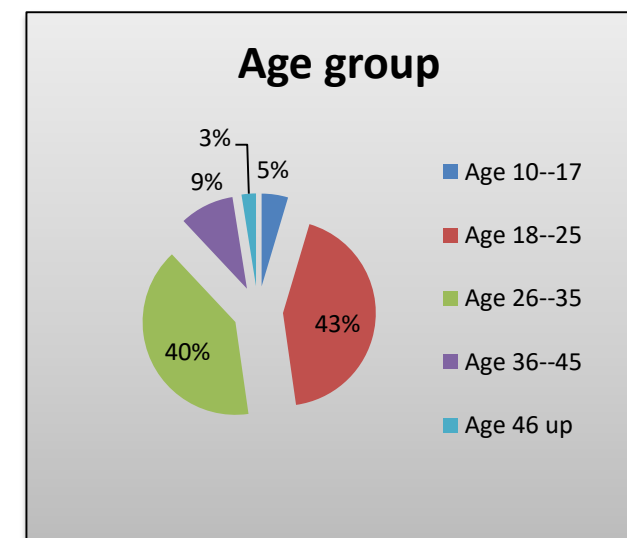

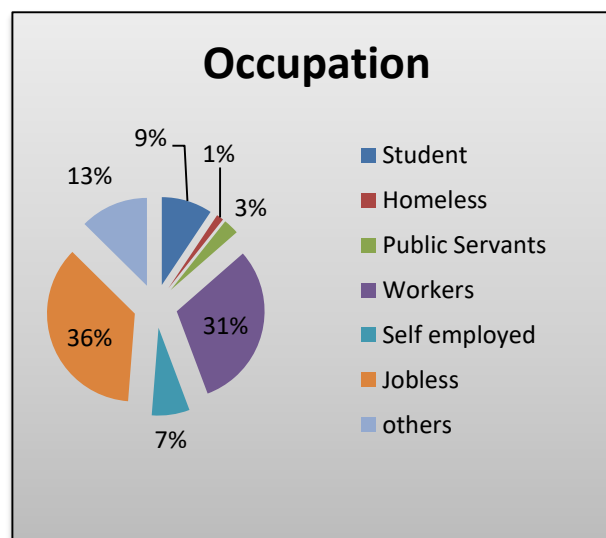

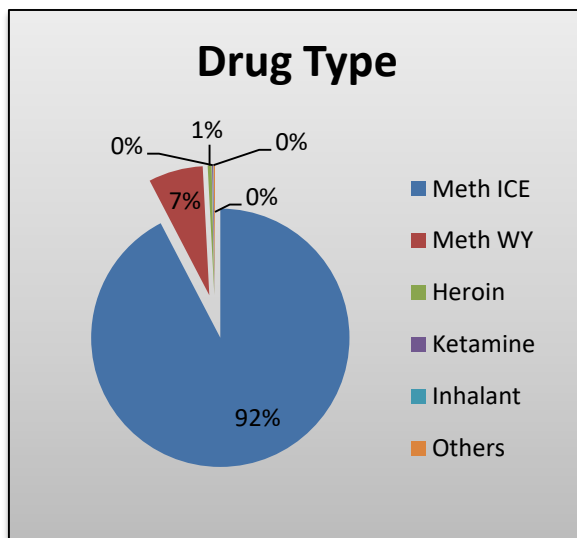

# I. INTRODUCTION

## 1) DRUG USE SITUATION

- Meth in Crystalline form remains the most of common of drug use, followed by Meth in tablet form and heroine;
- Jobless people and factory workers are the majorities amongst identified DUs;
- 18-35 are the most vulnerable to drug use.

# I. INTRODUCTION

## 2) PREVENTIVE DRUG EDUCATION INTERVENTIONS

- Preventive Drug Education becomes the most prioritized strategy in countering drug related problems;
- Interventions were developed based on programs and activities needed;
- A number of programs and wide range of activities, direct and indirect, were developed and carried out;
- Share responsibility was encouraged amongst all relevant ministries/agencies;
- NGOs/INGOs, Private, Religion etc. were mobilized to provide PDE;

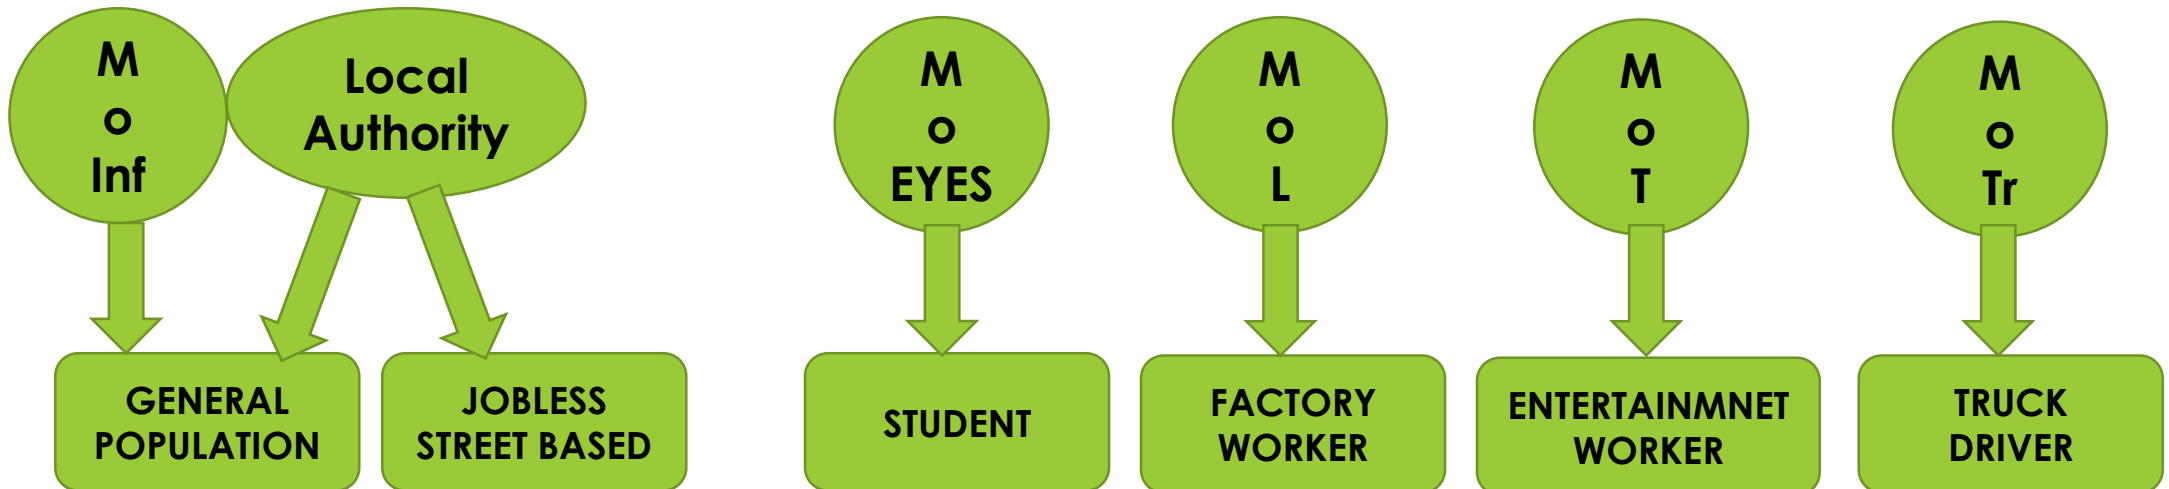

# I. INTRODUCTION

## 3) ANTI-DRUG CAMPAIGN AND NEW INITIATIVES

- Collective effort to counter drug production, trafficking and use as well as dealing with all drug related consequences;
- PDE has been prioritized as the first strategy, and specific target groups were identified and used to develop programs and activities;
- Ministry/Agency were also identified to take responsibility on specific target group, and develop specific program for PDE;

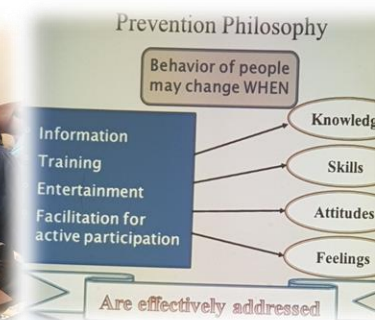

## II. SUSTAINABLE PREVENTIVE DRUG EDUCATION

### AN EXAMPLE OF PREVENTIVE DRUG EDUCATION IN SCHOOL

- Mechanisms were established
  - Steering Committee led by Minister;
  - Department of Health Education lead and coordinate the implementation;
- Action Plan developed
  - PDE has been integrated into health education plan;
- Budget Allocation
  - National Budget
  - Partner NGOs/INGOs Support

### **III. LESSON LEARNS**

#### **WITHOUT CLASSIFYING TARGET GROUP**

- Vulnerable people always leave behind;
- Less responsible of relevant Ministry/Agency;
- Problem with human/technical resource and financial mobilization;
- Always stop when shortage of budget;

#### **WITH CLEAR TARGET GROUP AND CLEAR ROLE AND RESPONSIBILITY ALLOCATION**

- Vulnerable people are covered;
- Ministry/Agency take full responsibility ;
- Easy to mobilize human/technical/financial resources;
- Sustain in all circumstances;

## **IV. WAY FORWARD**

### **INTERVENTION**

- Tailor programs/activities based on International Standard on PDE;
- Review and integrate into national curriculum;
- Develop IEC materials;

### **CAPACITY BUILDING**

- Develop Training Manual based on International Standard on PDE;
- Conduct ToT;

**THANK YOU FOR YOUR ATTENTION**

**Q&A**
